

RRJVA_M125A100CM

27.03.2023

M12 jack 5-pole

General Data

Type reference	RRJVA_M125A100CM
Description	M12 jack
Degree of protection	IP65 / IP67 (in the front)
Connection type	5-pole M12, A coded
Max. storage temperature	-25°C ... 80°C
Max. operating temperature	-5°C ... 80°C, for flexible installation -25°C ... 80°C, fixed installation

Electrical features

Operational voltage	125 V AC/DC
Operational current	4 A per contact
Rated impulse voltage	1,5 kV

General data

Mounting aperture	22.3 mm
Tightening torque (mounting nut)	max. 0.8 Nm

Note

Front ring: stainless steel

IP information: in plugged and screwed condition

Jack on the front side: M12 jack, A coded, 5 poles
 Connection on the rear: PVC cable; wires 0.34 mm² (AWG22) stripped, not insulated
 1: brown; 2: white; 3: blue; 4: black; 5: grey
 Cable length (X): 100 cm
